CS-500 2.1 Home Theater with DVD Amazing Home Theater in a Box

\$250 Off

Sleek, simple, and small the CS-500 home theater system puts the ultimate cinema experience right into your living room with fewer wires and less components. By way of Dolby® Virtual Speaker technology, this amazing little setup delivers the effect of a large, 5.1 home theater system with just two satellites, a subwoofer, and an A/V center.

52" CLASS OPUS by LG

With this 52" Class LCD HDTV Full HD 1080p - no matter how intense the on screen action gets your picture stays smooth with TruMotion and full 1920x1080p resolution. FULL HD RESOLUTION: Displays HDTV programs in full 1920 x 1080p resolution for a more detailed picture. TRUMOTION DRIVE (120Hz PANEL): Advanced 120Hz panel provides clearer, smoother images, even during fast action scenes. TRUCOLOR (WIDE COLOR GAMUT): Expands the gamut of colors from the conventional 88% of the NTSC spectrum to 92% for more vivid and natural reproduction of color.

SHOPPING FOR NEW TV? Ask Yourself these Questions First...

What size TV is right for me?

What Technology is right for me; DLP, LCD, or Plasma?

What signal am I going to give the TV?

Cable - 10HD Channels or Direct TV - 100HD Channels

Who is going to Install and Hook all of my Equipment Together?

Do I need 1080p?

Are all Flat Panels the Same?

What will happen February 17th, 2009?

Free Delivery & Setup on All 32" TV's!

Free In-Home Estimates on Theater Systems!
